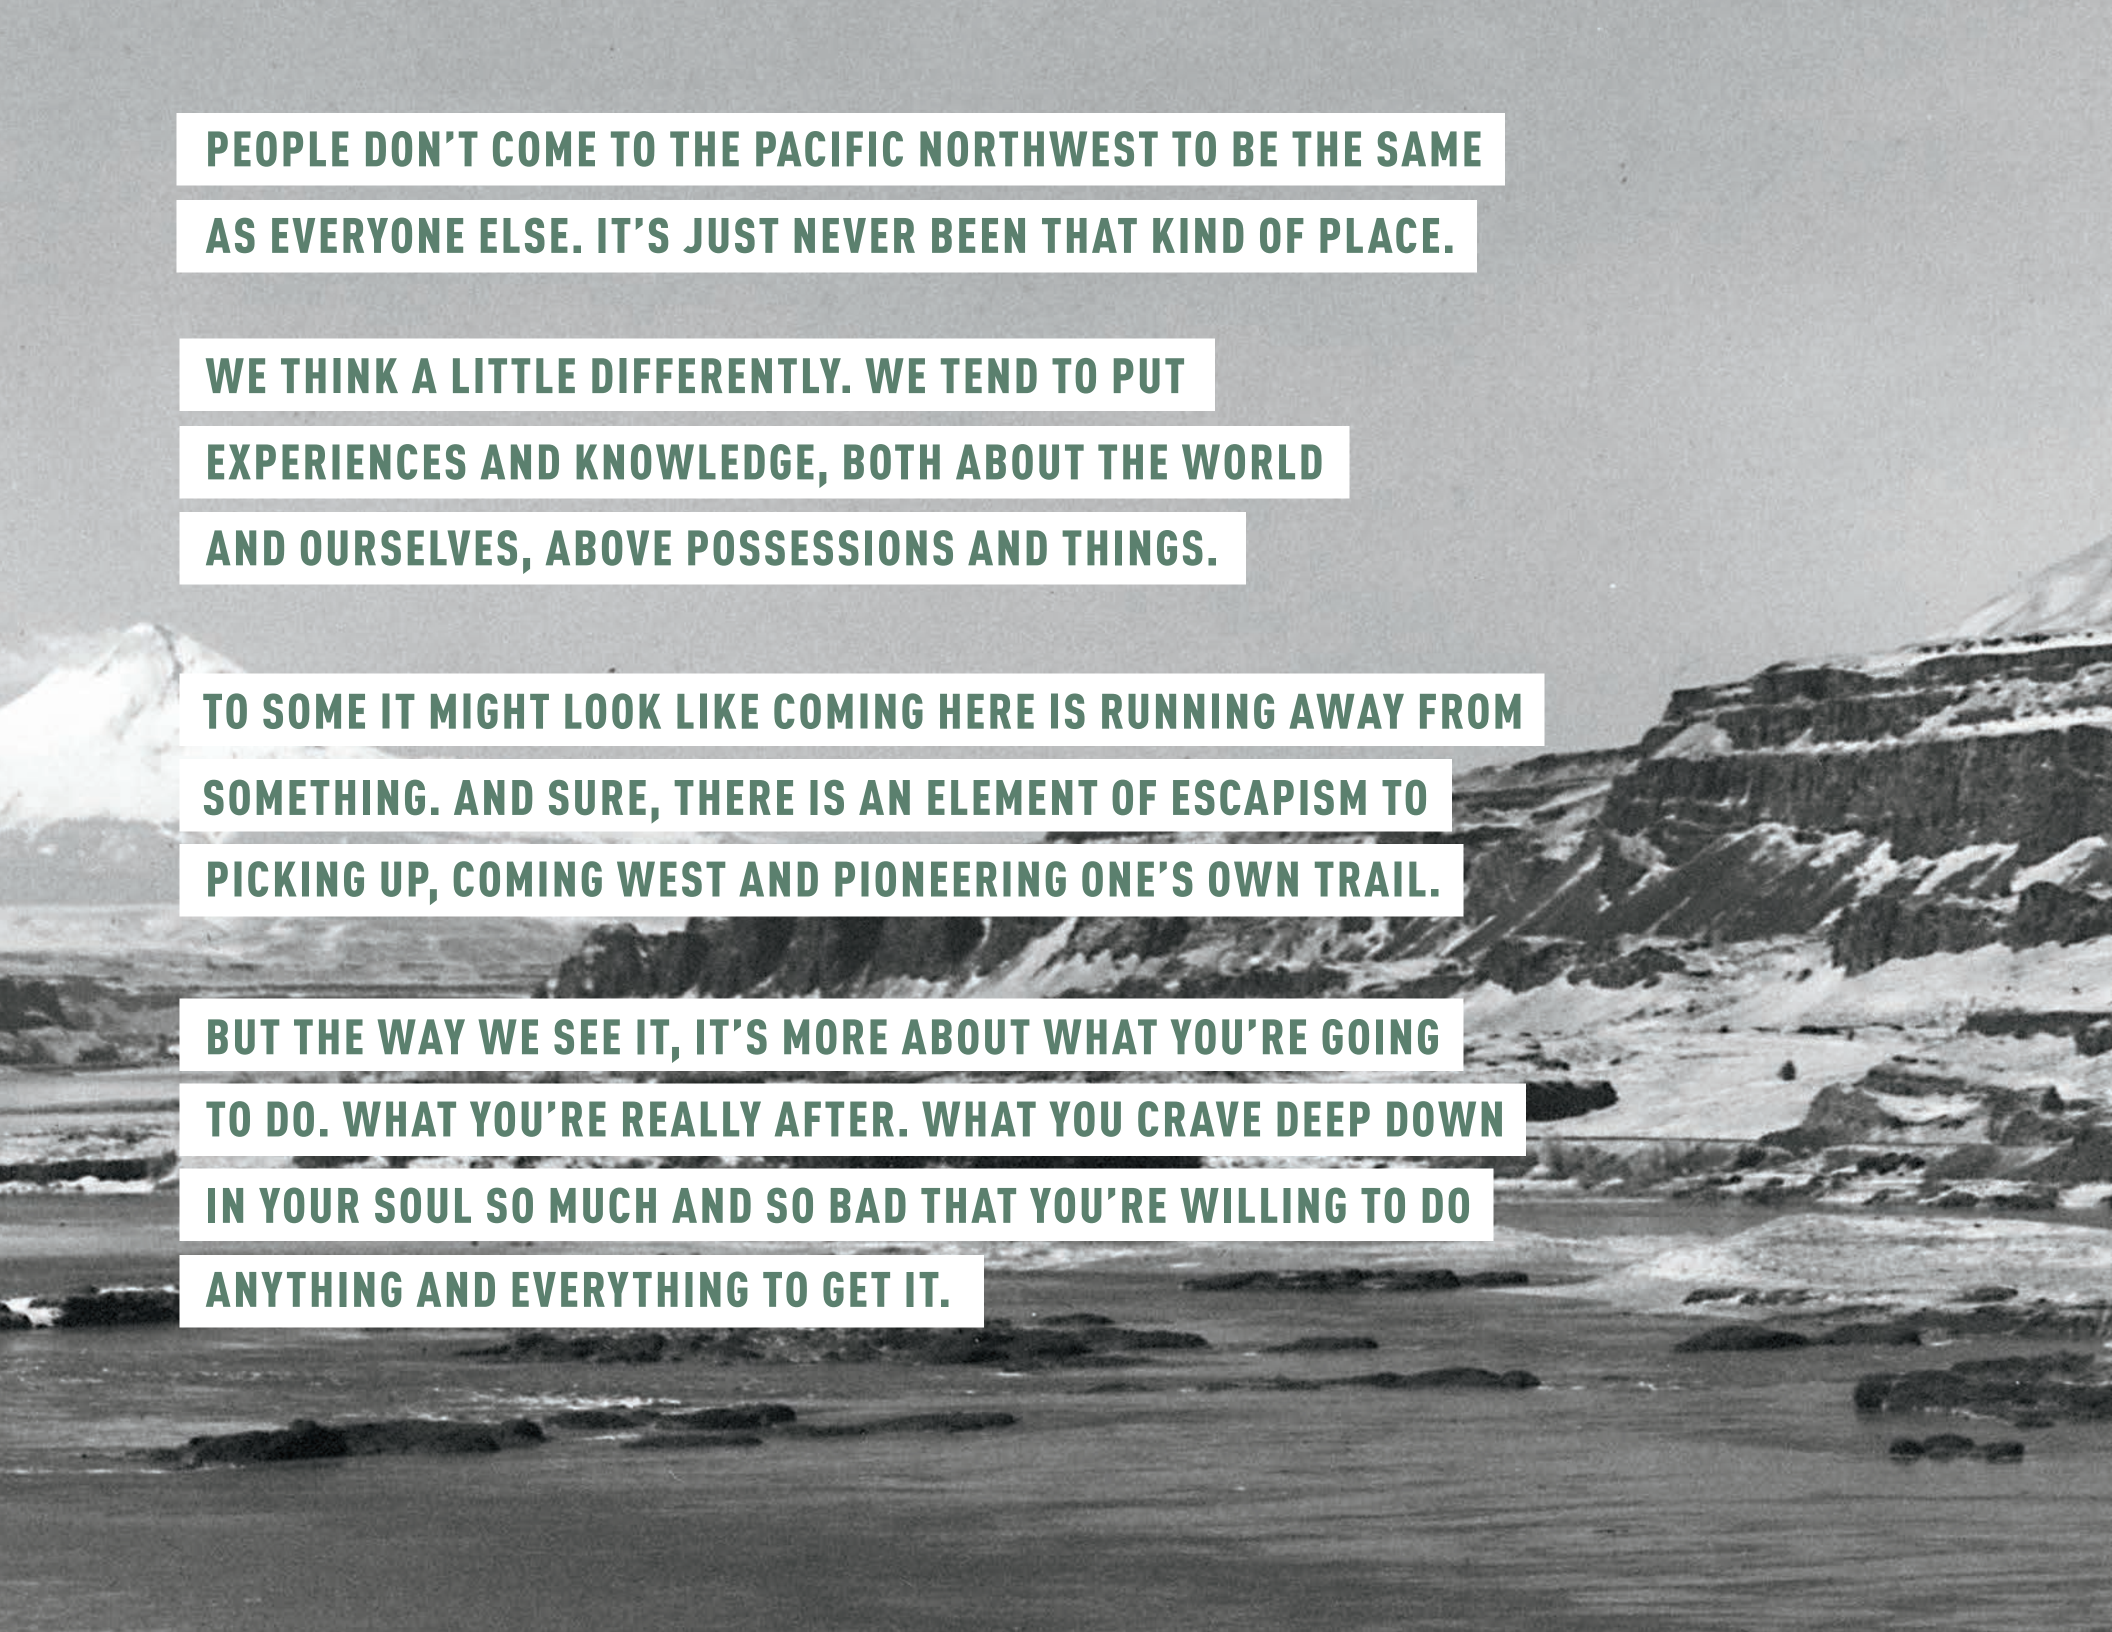
SPRING '23 WORKBOOK



PEOPLE DON'T COME TO THE PACIFIC NORTHWEST TO BE THE SAME AS EVERYONE ELSE. IT'S JUST NEVER BEEN THAT KIND OF PLACE.

WE THINK A LITTLE DIFFERENTLY. WE TEND TO PUT EXPERIENCES AND KNOWLEDGE, BOTH ABOUT THE WORLD AND OURSELVES, ABOVE POSSESSIONS AND THINGS.

TO SOME IT MIGHT LOOK LIKE COMING HERE IS RUNNING AWAY FROM SOMETHING. AND SURE, THERE IS AN ELEMENT OF ESCAPISM TO PICKING UP, COMING WEST AND PIONEERING ONE'S OWN TRAIL.

BUT THE WAY WE SEE IT, IT'S MORE ABOUT WHAT YOU'RE GOING TO DO. WHAT YOU'RE REALLY AFTER. WHAT YOU CRAVE DEEP DOWN IN YOUR SOUL SO MUCH AND SO BAD THAT YOU'RE WILLING TO DO ANYTHING AND EVERYTHING TO GET IT.

THESE RIGORS AND REWARDS THE PACIFIC NORTHWEST OFFER ARE INGRAINED IN OUR VALUES.

IT MIGHT BE A PLACE YOU NEED TO VISIT AND REVISIT TO BE YOUR BEST SELF. A WAY OF LIFE YOU YEARN FOR THAT IS VASTLY DIFFERENT FROM THE ONE YOU'VE ALWAYS KNOWN.

IT'S A COMMITMENT TO SOMETHING YOU FEEL UNEQUIVOCALLY CALLED TO, OR SIMPLY THE NEED TO STAND UP FOR YOUR BELIEFS AND WHAT'S RIGHT.

TO THOSE OF YOU WHO NOD YOUR HEAD, UNDERSTANDING OF WHAT WE SPEAK, KNOW THIS:

WE MAKE OUR BOOTS FOR YOU.

GO
THERE

PORTLAND MADE

CHARLES DANNER MOVED HIS OPERATIONS TO PORTLAND, OREGON IN 1936 WHEN HE LEARNED LOGGERS WERE IN NEED OF HIGH-QUALITY, HANDCRAFTED BOOTS THAT COULD STAND UP TO THE RIGORS OF THE PACIFIC NORTHWEST.

In fact, a well-worn pair of Danners served as proof a logger was worth his salt. As the needs of the Northwest evolved, so has our line of products. We've made boots for the shipyard workers building boats for the war effort during the '40s and outfitted hikers, backpackers and mountain climbers as the age of recreation bloomed in the '60s and '70s.

Eventually word of our boots got out, so much so the U.S. Army asked us to design a utilitarian combat boot specifically for troops serving in mountainous regions overseas.

And yet, as we've grown, we've done so on our own terms. We still make each pair with handcrafted precision, using the best possible materials we can find, to create boots built to last.

Which is exactly how we're going to keep making them for as long as we make boots.

TIMELINE

The Beginning
1932

1932 // Charles Danner opens the doors of Danner Shoe Mfg. Company in the old logging town of Chippewa Falls, Wis. with five employees to build affordable, handcrafted work boots.

Move to the Pacific Northwest
1936-1950

WASHINGTON
OREGON

1936 // Charles discovers an opportunity to sell calked logging boots in the Pacific Northwest and decides to move his family and the Danner business to **Portland, Oregon**.

1939 // Charles's sons John and Bill join the family business. They both leave their studies at the University of Portland to serve in the military during World War II.

1940's // After the end of the war, John goes to law school and Bill focuses on making boots at Danner.

1950's // Bill expands the product line and opens the company's first retail store.

Birth of USA-Made Hiking Boots
1960-76

1960 // Hiking, backpacking and mountain climbing become national trends. Danner becomes one of the only domestic manufacturer of hiking boots.

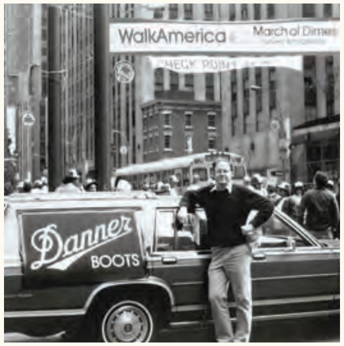
1970 // Danner designs a medium-weight hiker for broader appeal and becomes the standard for performance, rugged durability and craftsmanship.

1973 // The Danner 6490 launches and delivers the perfect balance of minimal break in with heel and toe protection. This model would later become known as the **Mountain Light** and would launch an entire collection of classic hiking designs.

First Waterproof Boot with GORE-TEX Liner
1979

1979 // Danner's unrelenting commitment to quality leads to the development of construction methods to make wet feet a thing of the past. Using **GORE-TEX** fabric, Danner is the first footwear brand to develop and patent a unique way of making a truly waterproof boot.

Change of Ownership
1983



1983 // After 50 years, Bill sells his company to Eric Merk under the condition that Eric follow the tradition of quality and craftsmanship the Danner family had built over the years. The company then moves to a new larger facility near the Portland airport.

Specialty Boots for Military and Law Enforcement

1983-92

1983 // Danner expands into hunting footwear and building boots for uniformed personnel, including elite members of the **U.S. Armed Forces and law enforcement.**

1992 // The American Podiatric Medical Association awards Danner boots and Danner Airthotic with the **AMPA seal of acceptance**–yet another nod to the comfort of Danner footwear.

Merge with LaCrosse Footwear

1994

LACROSSE®
FOOTWEAR

1994 // On March 14, Danner merges with LaCrosse Footwear Inc. of LaCrosse, Wis., to form a major force in the footwear industry. Since 1897, the LaCrosse brand has stood for premium-quality, handcrafted rubber footwear.

ISO 9002 Certification

1996

1996 // Danner becomes the first shoe manufacturer in the U.S. to earn ISO 9002 certification. This international set of quality standards helps assure customers that their Danner boots will be made to the highest standards for comfort, durability, support and waterproof protection.

Supporting our Troops

2010

2010 // Danner creates premium protective footwear, **co-developing and producing the new standard in combat boots** with the USMC RAT and Army Combat Hiker.

Growth and Expansion

2010-TODAY

Danner
Danner

2010 // The growth of Danner continues with the opening of a world-class 59,000 sq ft factory in Portland, Ore.

2012 // Danner is recognized as being one of the most desirable American fashion brands in the Japanese market.

2014 // The Danner Mountain Light Cascade makes its film debut in the **Fox Searchlight Pictures release of WILD**. Based on Cheryl Strayed's New York Times best-selling book, the film recounts her 1100-mile journey along the Pacific Crest Trail.

NOW // Danner continues to design and manufacture a complete line of hiking, hunting, uniform, work and lifestyle boots in its world-class factory in Portland, Ore.

BUILT TO LAST

IT TAKES YEARS TO LEARN HOW TO MAKE GOOD BOOTS. IT TAKES DECADES TO LEARN HOW TO MAKE GREAT ONES.

We have come by our boot making honestly.

Our techniques have been pioneered and perfected over the past 90 years.

We consider the boots we make to be our boots until they pass to you and become yours.
When they do, know they have been individually made with superior craftsmanship and are built to last.

If you take care of your boots, as you would anything you value, they will last as long as you wish to wear them.

THE STANDARDS

OUR BADGE

We are craftsmen. We pay attention to details. We forgo quantity for quality, knowing that the product we build is only as good as the hands that create it.

GRADING LEATHER

The only way to ensure the quality of a Danner boot is to ensure the quality of the materials we use. That's why every hide of leather is graded through a series of six tests, which check for flexibility and durability.

LEATHER CUTTING

Every hide is unique, as is our tradition of both cutting by hand and using the latest in laser technology. It's the only way to guarantee the best part of each hide is used.

DESIGN CONSTRUCTION

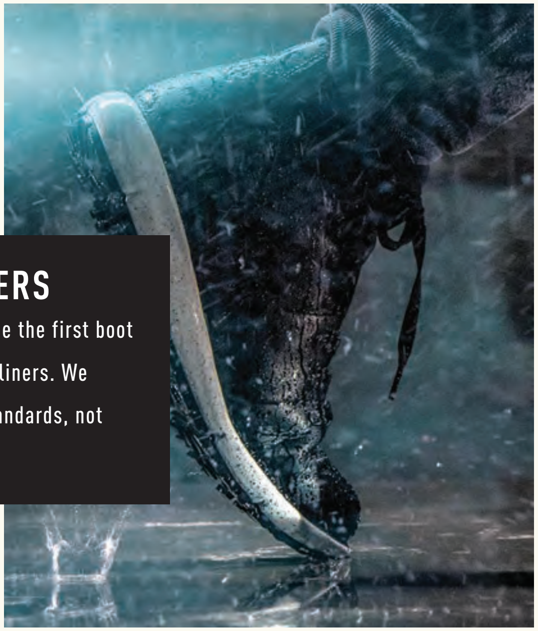
Product design is a vast collection of intricate details, from the last the boot is built on, to the stitching that binds each pattern piece together. And to a Danner boot, these are the details that set it apart.

HANDCRAFTING

There are more efficient ways to manufacture a boot but there is only one way to craft a boot with the fit, comfort and durability of a Danner boot – and that's by hand.

BUILT TO LAST

A pair of Danner boots can go a long way. And since many Danner boots can be recrafted by replacing the outsoles, reworking leather, and restitching seams, a pair of Danner boots can last even longer.



GORE-TEX LINERS

In 1979, Danner® became the first boot maker to use GORE-TEX liners. We consider this setting standards, not simply meeting them.

VIBRAM® OUTSOLES

The mark of a true craftsman comes from developing product that withstands the test of time year after year – and Vibram® exemplifies this. And that's why Danner® is proud to develop outsole designs with Vibram®.

RECRAFTING

When you invest in a pair of stitchdown Danner boots, you're getting the most durable, long-lasting footwear available. And for when they finally do begin to wear, Danner is proud to offer recrafting services to extend the life of your boots.

From simple part replacement to restitching seams to major overhauls, Danner can provide repair services so your boots can last even longer. Turnaround time varies, depending on the season and scope of work needed.

Unfortunately, not all Danner boots can be recrafted. They must have a stitchdown, not cement, construction. If there is a tear or hole in the leather, Danner is unable to recraft that boot.

To be sure your boots qualify, please contact us at recrafting@danner.com or visit danner.com/recrafting.

DANNER FACTORY STORE | 12021 NE Airport Way | Portland, OR 97220 |
503.251.1111 | recrafting@danner.com | danner.com/recrafting

All recrafting is done at Danner's Factory store in Portland, Oregon.

CONSTRUCTION

STITCHDOWN CONSTRUCTION
TERRA FORCE NEXT TECHNOLOGY
TERRA FORCE TECHNOLOGY
TRAILGUARD PLATFORM
DANNER COMFORT SYSTEM

A Danner® boot is a mark of unparalleled quality. It's been that way since 1932, the year Charles Danner decided to open his boot making business in the midst of the Great Depression and risk his future on a stubborn belief that – regardless of the economy – superior craftsmanship mattered.

By the 1960s and '70s, Danner stitchdown construction was legendary. It gave our boots a wider, more stable platform.

Over time, we continued to push footwear technology and design – blending heritage and innovation to deliver reliable and durable performance in any environment.

It's much more than just keeping our standards high, it's about making sure the products we create live up to yours.
